

TAHA CONTRACTOR

Mumbai, Maharashtra | [+91 88501 06286](tel:+918850106286) | tasaif265@gmail.com

Portfolio : tahacontractor.vercel.app/ | LinkedIn : linkedin.com/in/iamtahase | GitHub : github.com/iamtahase

PROFESSIONAL SUMMARY

Final-year Bachelor of Engineering (B.E.) student in Information Technology with hands-on experience in Full Stack Development and AI-powered document automation through an industry internship. Proficient in Java, Python, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Passionate about building scalable software solutions, continuously learning new technologies, and seeking a Software Development or Full Stack internship to contribute to real-world projects while enhancing my technical skills.

TECHNICAL SKILLS

- **Programming Languages** : Python, Java, C, C++
- **Frontend Technologies** : HTML5, CSS3, Tailwind CSS, React.js
- **Backend Technologies** : Node.js, Express.js
- **Databases** : MySQL, MongoDB, Firebase
- **Version Control & Tools** : Git, GitHub, VS Code, AWS, Docker
- **Artificial Intelligence & Machine Learning** : OCR, Prompt Engineering, LLMs, AI-Driven Document Automation
- **Core Concept** : Data Structure & Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Operating Systems

EXPERIENCE

- **Artificial Intelligence & Machine Learning Intern**
IT Mines Technology Pvt. Ltd | Dec 2025 – May 2026 (6 Months)
Project : Intelligent PDF Form Automation System (Python, OCR) | [GitHub](#)
 - Developed an Intelligent PDF Form Automation System using Python to convert non-editable PDF documents into interactive fillable forms.
 - Built an OCR-based document processing pipeline using Tesseract OCR, PyMuPDF, and PyPDF for text extraction and automated field mapping.
 - Optimized the application by replacing an initial LLM-based approach with an OCR- and rule-based solution, improving performance and reducing processing cost.
 - Collaborated with the development team to test, debug, and enhance document automation workflows.

PROJECT

- **Digital Menu Ordering System (ReactJS, JavaScript, HTML, Tailwind CSS, Firebase)** | [GitHub](#)
 - Developed a QR code-based digital menu application enabling customers to browse menus and place orders online.
 - Built features including cart management, responsive UI, and seamless order placement for an enhanced user experience.
 - Designed an admin panel for managing menu items, categories, and restaurant content efficiently.
- **Airline Ticketing System (Java, Swing, MySQL, JDBC, OOPs)** | [GitHub](#)
 - Developed a desktop-based airline ticketing system with secure admin authentication.
 - Implemented ticket booking, cancellation, passenger management, and flight search using Java and MySQL.
 - Enabled ticket generation, download, and printing through an interactive Swing-based interface.

EDUCATION

- **Bachelor of Engineering (B.E.) in Information Technology**
Konkan Gyanpeeth College of Engineering, Karjat | Mumbai University
Expected Graduation : 2027 | Current CGPA : 7.40/10
- **HSC – Class XII**
St Xavier's College, Mumbai | Maharashtra State Board | 2023
- **SSC – Class X**
GSG High School, Karjat | Maharashtra Board | 2021

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) GenAI Professional 2025 - **Oracle University**
- Software Engineering Job Simulation - **JPMorgan Chase & Co. (Forage)**
- Building GenAI Model (Hands-on Project) - **NxtWave**

ACHIEVEMENTS

- Secured **3rd Rank** in **Smart India Hackathon (SIH) 2025** College Round
- Participated **AWS Hack The Future 2025** AI based Hackathon
- Collaborated on real-world AI document automation solutions during industry internship
